HELO SAUNA  
HEATERS & STEAM  
GENERATORS

# THE UNITED NATIONS OF SAUNA

After being separate brands for a very long time, Tylö and Helo now form TylöHelo. Both brands are proud entities, each with an individual style and approach to creating better lives for our customers. Innovative ideas, determination and visions continue to sit at the core of our businesses and drive our success. We now compile all our individual strengths to form a new and even stronger force in the wellness industry. TylöHelo.

# ELECTRIC SAUNA HEATERS

ELECTRIC | HELO

## Finnish sauna traditions, ingenuity and design

Helo sauna heaters are steeped in tradition. The Finnish sauna is a vital part of every day, a chance for families and friends to gather and unwind. A Helo sauna heater elevates the daily sauna experience by adding beautiful design and ingenuity to the heater's functionality. Helo has spearheaded the multi-layered sauna experience through its smart BWT technology, which allows for a multitude of sensations from one single sauna heater. Select hot, dry, warm, steamy, or any combination that you prefer. Add to that the possibility to infuse the space with soothing aromas or minerals. All you really need to do is use the BWT container. Add or subtract water. Lean back. Relax.

**BWT** READY

### HELO SAUNA HEATERS FOR HOME AND COMMERCIAL USE

To make it easier for you to determine what sauna heater might be the right one for you, we have marked them with two different icons to quickly allow you to see what type of application it is best suited for.

Suitable for domestic use.

Suitable for commercial use.

### HELO IS SYNONYMOUS TO SAUNA VARIETY

We take your sauna pleasure seriously. Therefore we have developed BWT technology, a revolutionary solution to suit different sauna tastes and preferences. One single sauna heater provides several varieties of soothing sauna styles. Indulge in a multi-layered sauna experience, alone or with friends and family.

#### Gentle Sauna: 50–60°C

Add water to BWT-container, set to 50–60°C

- Gentle sauna
- Enveloping steam
- Longer sessions
- Bio-aroma available.

#### Flexi-Sauna: 60–80°C

Fill BWT water container and set to 60–80°C

- More humidity
- Lower temperature
- A gentle sauna experience
- Bio-aroma available.

#### Hot & Dry Sauna: 80–100°C

Use BWT without water and set to 80–100°C

- High temperature
- Low humidity
- Intense sauna sensation.

### HELO SAUNA SENSIBILITY

**ECONOMY** — Less wear and longer life protects your investment. The generally lower levels of heat used in a BWT-ready sauna from Helo means less stress on the sauna room and hardware. Your sauna room will last longer and the simple engineering of BWT keeps technical maintenance to a minimum.

**ECOLOGY** — Faster warm-up time, same sauna sensation, but with a much lower energy consumption and less CO2 emissions. With a BWT-ready sauna solution, you get the full sensation of heat in less time. Using the physical properties of steam, you get the sensation of heat in half the time compared to regular saunas.

# CHOOSING THE RIGHT HEATER TO SUIT YOUR SAUNA

Reach the perfect sauna experience and the greatest energy efficiency combined by considering the physical properties of your sauna room. Follow the three easy steps below.

1

## FIND OUT THE SIZE AND VOLUME OF YOUR SAUNA ROOM

Use the chart on the opposite page to give you an indication of heater choices and ideal power output for your sauna.

2

## DETERMINE WHAT TYPE OF SAUNA THERAPY YOU PREFER

Different heaters provide different sensations. For example dry, wet and steam sauna.

3

## CHOOSE THE WAY YOU LIKE TO CONTROL YOUR SAUNA

Use an in-room control panel, remote, digital or analogue.

## The sauna room efficiency chart

Here is a simple guide to outfit your sauna for maximum efficiency and usability.

# WOOD BURNING SAUNA HEATERS

WOOD | KASTOR

At TylöHelo we know that there is something very special about a wood burning sauna. This is why we offer wood burning stoves from Kastor and Helo, both renowned for manufacturing world-class quality products. Our wood burning sauna heaters are designed with optimum quality in mind. Not just in terms of physical construction, but also for optimum function. Thanks to skilful engineering we have succeeded in combining modern aesthetics, functionality and a clean burn.

The operating efficiency of our wood burning heaters is unrivalled, and the temperatures of the emitted flue gases are record-low. The efficient combustion is based on the skilled use of insulating and heat-retaining materials, optimisation of the sauna stones container, and above all our efficient double combustion technology. Your heater will heat up quickly, economically and in an environmentally friendly manner.

**KASTOR SAGA**  
The Kastor Saga takes wood burning saunas to new heights with 150 to 200 kg of exposed stone providing soothing heat and steam. The surface of the stones makes the stove a delightful focal point.

**HELO R20**  
The CE-marked Helo R20 wood burning heater, suitable for 8–20 m³ sauna rooms, is available with a water tank on the front, left or right hand sides of the heater.

**KASTOR KARHU**  
The Karhu wood burning heater is available with a water tank placed to the left, right or front.

*Our wood burning sauna heaters are designed with optimum quality in mind. Not just in terms of physical construction, but also for optimum function.*

# STEAM GENERATORS

STEAM | HELO

Our newest line of steam generators are engineered to provide top performance under demanding conditions and a variety of water types without failing. Smart control units give you full access to current status and functions. And most importantly our steam generators will envelope you in rich, dense and warm steam and relaxation.

## QUALITY

For over 30 years we have been manufacturing steam generators at our own factories in Finland and have taken great pride in producing top quality products. Smart technical solutions form the basis for sustainable products and are a key contributing factor to our industry leading position.

## COMMUNICATION

Our control panels allow you to control and monitor up to three steam generators from the same location. You can also set it up on your computer or mobile device.

## INTELLIGENCE

Two-way communication between the control panel and the steam generator provide a handy real-time overview of all functions.

Speed heat

Greater energy efficiency through faster warm-up times.

Standby

Less energy consumed and faster reaction time to heat sauna or steam room.

Wi-Fi

Wifi connectivity for comfort, control and convenience.

## It's all about water

## SUSTAINABILITY

Quality control, smart technology and a strong focus on water and energy consumption, we have designed Helo's steam generators for minimal impact on our environment. The stand-by mode option and our "divided output" function can reduce energy consumption by up to 30%.

## LESS MAINTENANCE

A Helo steam generator will run for many years with no interruption and a minimum of maintenance. They come with an automatic emptying function set according to the water quality in your area.

## HIGH LEVEL OF COMFORT

Whether our steam generators are installed in a home or public setting, they are designed to offer top-quality enjoyment comfort and safety without interruption. The convenient Multi-Steam function ensures uninterrupted operation in heavily-utilised facilities.

## IT'S NOT JUST STEAM

Our new steam generators set a new industry standard with their innovative solutions based on decades of experience.

## WE MAKE SURE EVERYTHING OPERATES SMOOTHLY

To ensure proper steam generation, it is important to analyse the water in your area. The quality of the water has a major bearing on both the function and service life of your steam generator.

Contact your local TylöHelo dealer to determine the water quality before ordering your steam generator system. Sometimes your local water company may be able to provide the information you need.

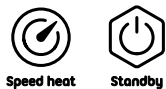

# Helo Steam PRO

The new Helo Steam Pro generator automatically prevents overheating and dry running, should there be an interruption to the water supply. The generator saves time on maintenance and down time thanks to its automated filling function. For added convenience flushing and emptying functions are available, as well as the possibility to run several units through serial connection.

<b>Available sizes:</b> 9.5/12/14/16 kW
<b>Features:</b>
Standby Function
Automatic flush, Safety flush
Two aux outputs for fragrance/salt
Ganging with RJ connectors (1+2units)
Resettable highlimit switch
New drain valve
<b>Available Add-on:</b>
Push button for activation from Standby

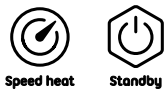

# Helo Steam

The Helo Steam generator for private use is based on the newest available technology. It sets a whole new level for user interface and reliability. It comes equipped with two auxiliary compartments for salt/fragrances for added comfort. It is also possible to order it with optional drain valve and automatic flush functionality.

<b>Available sizes:</b> 3.4/4.7/6/7.7 kW
<b>Features:</b>
Two aux outputs for fragrance/salt
Resettable highlimit switch
<b>Available Add-ons:</b>
New drain valve
Automatic flush

## DIGITAL CONTROL UNITS FOR COMFORT AND CONVENIENCE

Experience a next level steam bath. Combine our new and efficient steam generators with one of our digital control units. Not only can you enjoy the luxury and comfort of your own steam bath. You can plan ahead and schedule your steam sessions to be an integral and natural part of your everyday routine.

# HeloConnect™, an all-new control panel app for mobile devices and computers

## SAUNA CONVENIENCE

The new Wifi connected control panels from Helo are packed with advanced features. In order to increase comfort, convenience and a better user experience we recently launched HeloConnect™, an ingenious computer and smartphone app developed for mobile devices and personal computers.

## Premium

If you want maximum sauna convenience, the Premium control panel is your choice. Packed with convenient functionality such as weekly schedules and individual programs, personalized user profiles and crystal clear display, to name but a few. All accessible via Wifi at the touch of a button on a mobile device or PC at a front desk.\*

- Set temperature
- Option: set humidity
- Can create multiple user profiles
- Control sauna/steam via WiFi and app
- Control several units at a time
- Set different schedules for different week days
- Set specific profiles for specific times or dates
- Instant fault notification

# CONTROL PANELS

Developed and manufactured specifically for Helo giving seamless functionality

## Trend

The elegant, compact design of the Trend control panel is all about functionality and advanced technology. It lets you set the lighting, temperature and sauna time easily with just a few touches.\*

\* Please note that some control panels require a relay unit to connect with heater or steam generator. Consult your dealer or tylohelo.com for more information.

# BUYING GUIDES

BUYING GUIDES | HELO

Regardless of the space that you have available intended for your sauna or your steam room, we are happy to guide you to the best and most efficient solution to suit your desires. In this buyer's guide we have gathered all the information you need in order to find the right solution for your taste, space and needs. Do not hesitate to contact a Helo dealer if you would like to know more.
