

TYLÖ

PANACEA TWIN

According to the legend, Panacea - the mythological Greek goddess - possessed a medicine known to cure every illness on earth. With Panacea, Tylö has reinterpreted this mythology classic, by creating a sauna and steam room experience in two cabins combined.

Step into Panacea Twin and arrive at another dimension - a place where exquisite materials and sensual, soothing experiences carry you through a pleasant metamorphosis. Enter the world of Panacea and re-emerge a changed person.

**SAUNA &
STEAM IN
ONE SINGLE
SOLUTION**

A complete solution for the high-end spa or your own home.

DESIGN AND MATERIALS

With unmatched sense for design and quality the Panacea Twin offers a wide flexibility in size and interior, all wrapped in a timeless design. Our goal has been to create a highly flexible sauna and steam bath solution where versatility and bespoke solutions rule, where design flows unrestrained. You can easily mix and match wall panels, interior and layouts, in both the sauna and in the steam room.

LUXURIOUS
TIMELESS
DESIGN

CORIAN

When creating Panacea Twin, we used Corian for interior features such as benches. Thanks to its extremely flexible and multifaceted properties, Corian is every architect's preferred material. It's a durable, elegant and hygienic material that through its physical properties are extremely suitable for steam rooms.

THE SUITE AND SPA

Introducing Panacea Twin to a commercial setting such as a hotel suite adds value to the guest’s experience and constitutes a desirable quality to the high-end hospitality sector. The sauna and steam bath solution are part of a comprehensive concept with possibilities to add bespoke furniture and accessories. Thanks to its modular construction, the Panacea Twin is ready to be used almost immediately.

The Panacea Twin room is surprisingly simple to assemble and install. The design is meticulously engineered and delivered in finished modules. Panacea Twin from Tylö is ready to use within hours, rather than days.
